Theme of online training: SEP

This online training falls under the theme – “**Sufficiency Economy Philosophy**” or SEP. The SEP is an approach for sustainable development which espouses moderation, reasonableness and prudence as development framework based on knowledge and virtue. The Philosophy stresses the importance of human development at all levels and also emphasizes the need to strengthen community’s capacity to ensure a balanced way of life and resilience, with full respect for the environment. As an approach and mind-setting framework, we believe that SEP can be applied to

all 17 SDGs. Therefore, over the recent years, Thailand has shared with international community the application of SEP, our home-grown approach to sustainable development.

In response to the COVID-19 pandemic, we aim to share Thailand's experiences in the application of Sufficiency Economy Philosophy (SEP) for sustainable development particularly during the period of COVID-19 pandemic.
