Singapore Cooperation Programme

The Singapore Cooperation Programme (SCP) was established in 1992 to share Singapore's development experiences with other developing countries, with an emphasis on technical assistance. As a country whose only resource is its people, Singapore believes that human resource development is vital for sustained economic and social progress.

To date, over 165,000 officials from more than 180 countries, territories, and intergovernmental organisations have participated in SCP courses and study visits. The SCP is managed by the Development Partnerships Directorate of the Ministry of Foreign Affairs, Singapore.

Civil Service College

Civil Service College (CSC) is the central learning institution for the Singapore Public Service. It plays a pivotal role in nurturing and developing people for a first-class Public Service. As a Statutory Board under the Prime Minister's Office, we endeavour to be the heart of learning excellence and development for the Singapore Public Service.

CSC offers a comprehensive suite of programmes that build strategic capability in the public service, focusing particularly on core areas in public governance, leadership, public administration and management. We work closely with central government and public sector agencies to embed values, communicate public sector directions, and manage change in individuals and organisations.

CSC partners public and private sector organisations as well as academia and international government agencies to exchange best practices and experiences in leadership, policy development, public administration and public reforms. By sharing the Singapore government's experience and best practices, CSC hopes to promote good governance and develop goodwill, co-operation and understanding between different governments across the world.
